This[1] is just a test[2]. It doesn't work[3]. But maybe if a brain with more values pre-loaded were to look at the code...

1.   And by "this" I mean the .sil file
2.   Actually it's not a test so much as a demonstration or minimum working example in an attempt to figure out how the base-lineskip value it set in footnotes.
3.   Yet.
